

The Cotswold

single storey garage

OAKWRIGHTS®

The Design

The Cotswold is a single storey garage utilising the Little Gloucester's footprint. With larger bay sizes in width and depth to the other single storey models, it is a great option for maximising space.

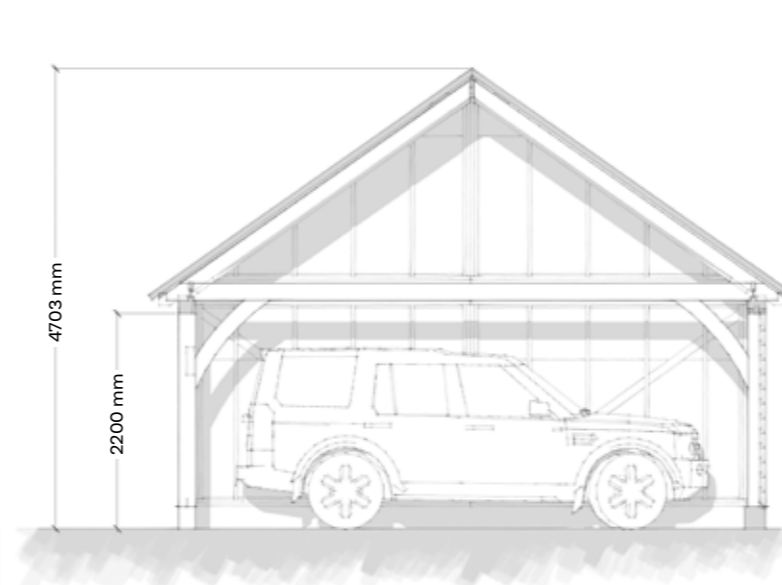

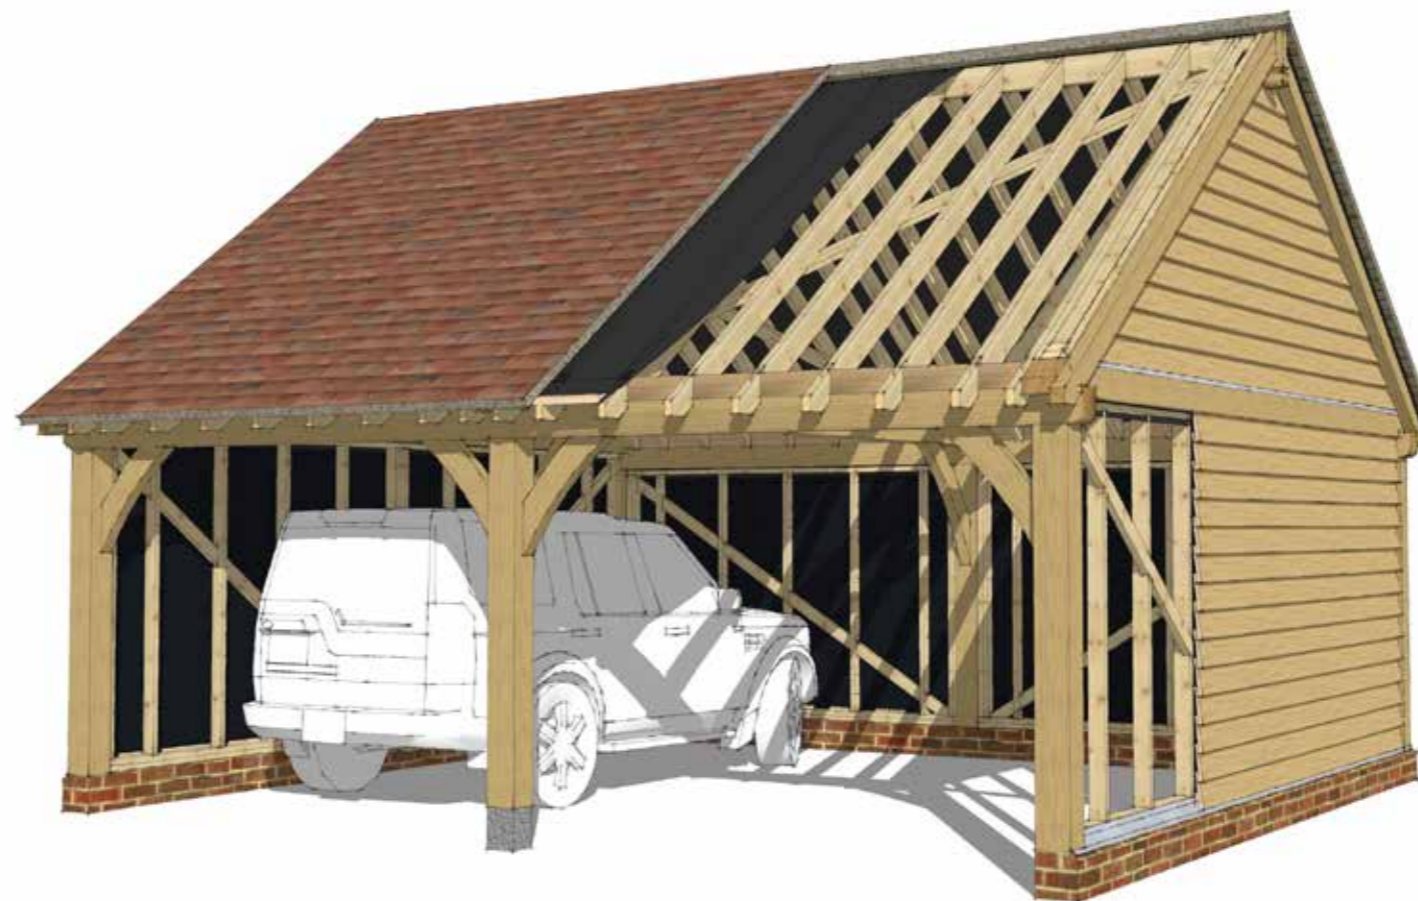

All of the frames within our timber garage collection provide generous enough space to cater for vehicles such as a Land Rover Discovery, however, The Cotswold provides even larger bays and space. This makes it the perfect choice if you have a larger vehicle or require slightly more covered outside storage space.

Features

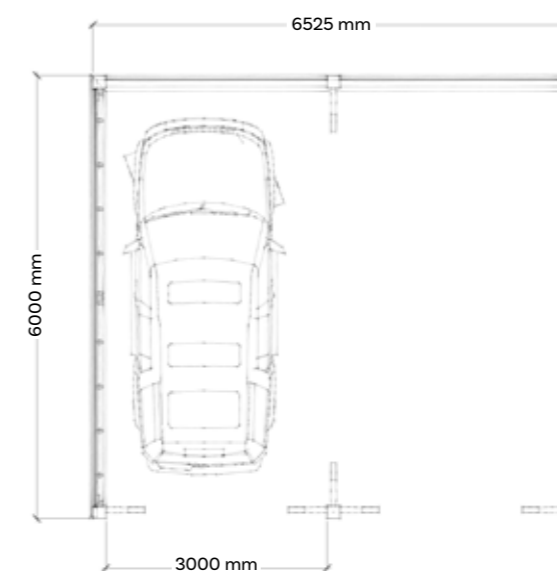

- Larger footprint for extra storage and configuration options.
- Planed oak frame posts 175 mm x 175 mm.
- Traditionally pegged green oak frame.
- Natural saddle stones (not composite) for independent posts.
- Large bays to accommodate most 4x4's.
- Optional oak doors, or open bay configuration as pictured.
- Softwood rafters, studwork and choice of weatherboarding.
- Choice of roof covering, guttering, felt and battens.
- Windows and doors, as required.
- 10 year warranty on the structural oak frame.
- Full oak eaves & verge or optional larch eaves & verge.
- Finials and decoration points.

Optional Extras

- Dormer windows.
- Rooflights.
- Garage doors.
- Windows and doors.
- Roof tiles.
- Boarding.
- Hip/half hip roof design.
- Log store.
- Planning Permission and building regulations service is available.
