

The Kenchester

single storey garage

OAKWRIGHTS®

The Design

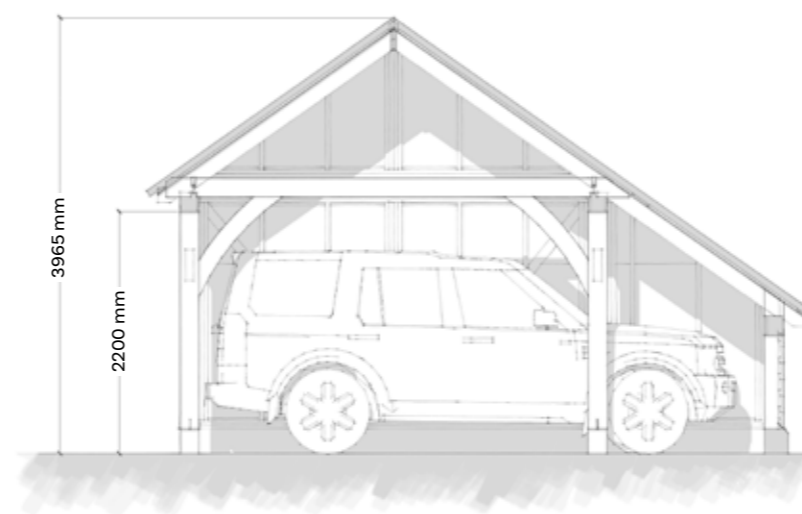

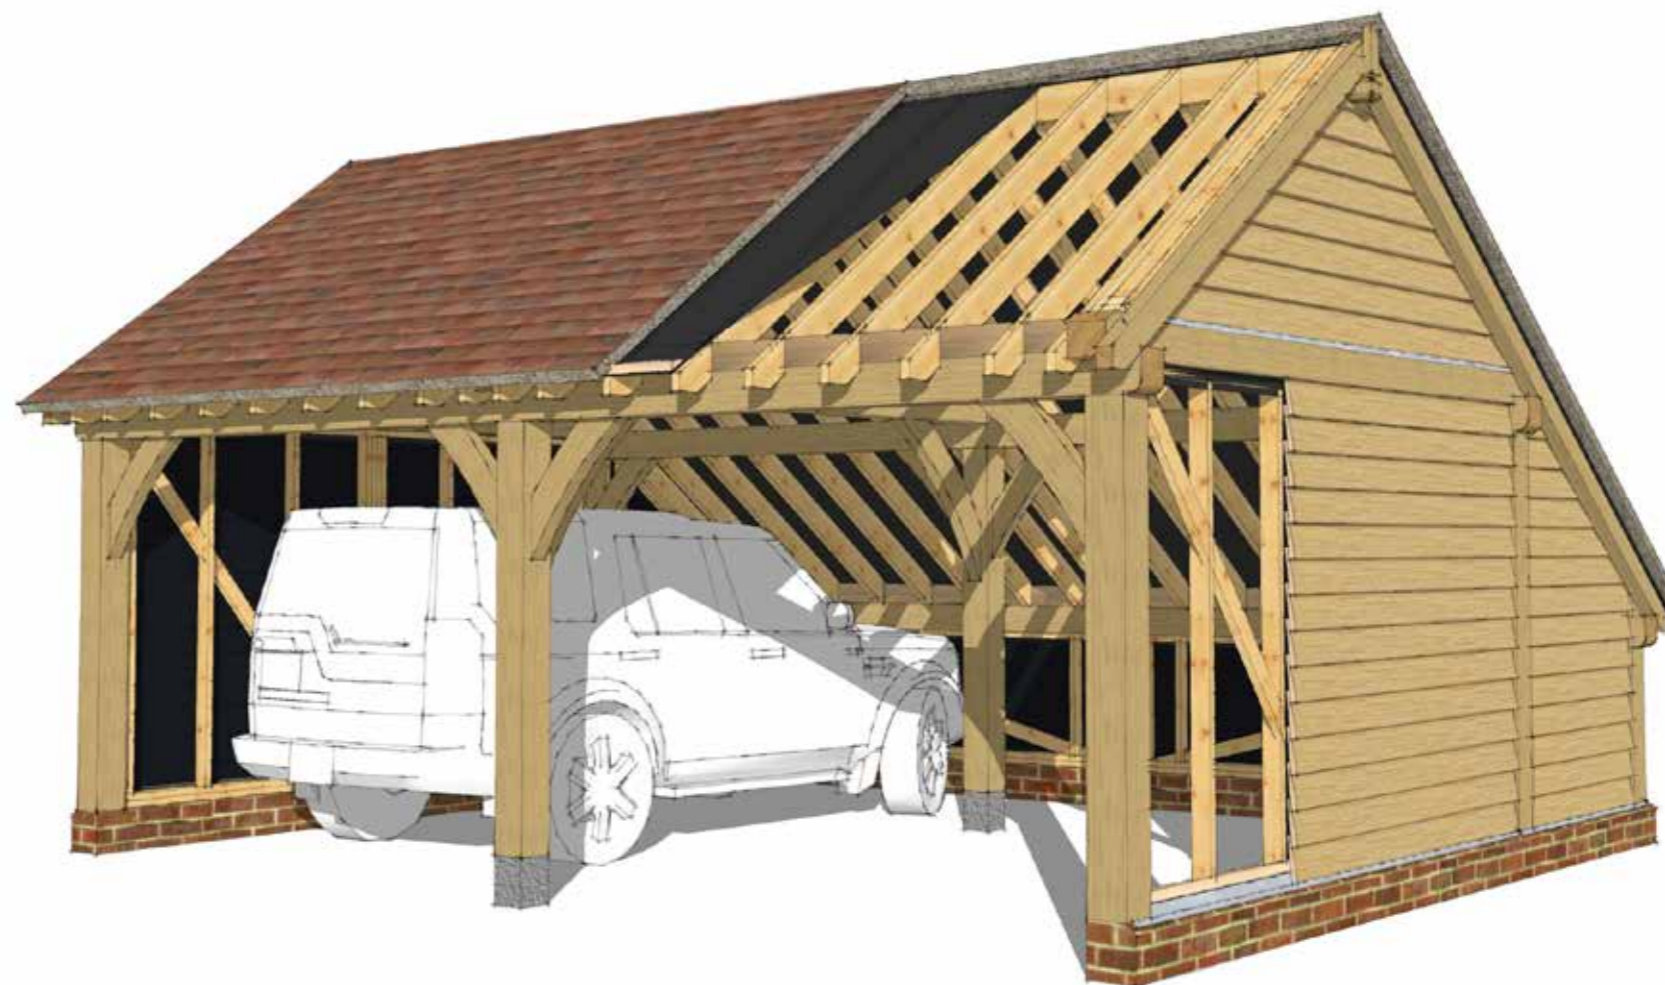

The Kenchester is a simple, cost effective oak framed garage which offers great versatility. The garage can be crafted as its drawings show, or as a starting point for your bespoke garage project. This traditional two bay garage will complement your home while adding aesthetic beauty. The cat slide roof ensures the ridge height is kept low (under 4 metres to the ridge) whilst retaining adequate depth so most cars can be parked within it.

Features

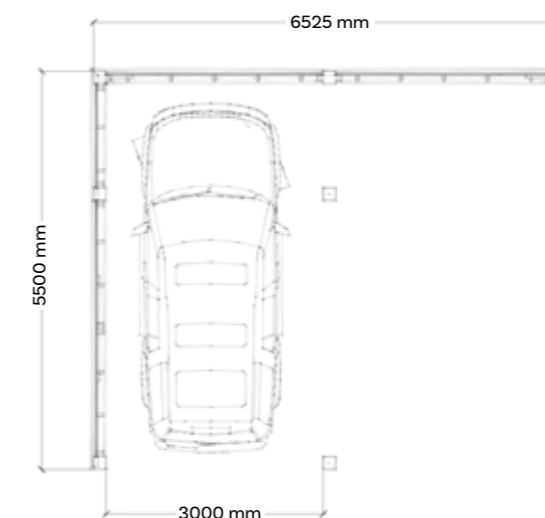

- Ridge height below 4 metres, so ideal for Permitted Development.
- Planed oak frame posts 175 mm x 175 mm.
- Traditionally pegged green oak frame.
- Natural saddle stones (not composite) for independent posts.
- Large bays to accommodate most 4x4's.
- Optional oak doors, or open bay configuration as pictured.
- Softwood rafters, studwork and choice of weatherboarding.
- Choice of roof covering, guttering, felt and battens.
- Windows and doors, as required.
- 10 year warranty on the structural oak frame.
- Full oak eaves & verge or optional larch eaves & verge.
- Finials and decoration points.

Optional Extras

- Dormer windows.
- Rooflights.
- Garage doors.
- Windows and doors.
- Roof tiles.
- Boarding.
- Hip/half hip roof design.
- Log store.
- Planning Permission and building regulations service is available.
